NEWSPAPER CASH SYSTEM

We are no enemy, but a friend and advocate of a judicious credit but an indiscriminate credit for small amounts—the thousands of little charges that mechanics and others, printers in particular, have been in the practice of making, is injudicious and ruinous, without one redeeming benefit We have noticed with some interest, that a new and better system has been adopted in many newspaper establishments, and others, who have travelled in the old path, talk of changing their course and adopting the cash system From what we have noticed in others and taking our own experience, we are strongly inclined to the opinion that the old, perhaps we should say precent, mode of giving an indiscriminate credit to subscribers and advertisers, is injurious to both parties, whereas the cash system helps both.

The extent of injury which the newspaper credit system produces, can hardly be estimated, we have a case in point that feebly shadows forth some of the evil consequences of it A young man purchased a newspaper establishment that had a subscription list of about twelve hundred names, with an advertising patronage of about one thousand dollars He continued the paper with what means he could raise, and the use of his credit, until both became exhausted, and he was compelled to stop at a great sacrifice on the materials in his office, while he had due him from his patrons between two and three thousand dollars He was engaged to a young and beautiful girl, to whom he had given his heart and was desirous to bestow his hand In this situation he prepared his books and papers and made an effort to collect his debts which he found were scattered from Florida to Nova Scotia. From some he obtained small sums, from others, complaints, from a few, promises, and from more, neglect, until at length he gave up all hope, and went to work as a journeyman to earn money sufficient to warrant him in taking a wife This, although a hard case and given in brief, is but one of thousands of hardship and disappointment among publishers of newspapers

But why continue a system of no benefit to any one, but of hardship to many? There is no need of it, except that necessity, which is alone the result of habit, and the want of a concert of action among those most interested It is supposed by some that to change the credit to a cash system, would result in the loss of many names to the subscription list and a falling off in advertisements. So, for a time, it may, but in a short period, people would learn they could not feel contented to get along without newspapers and that it were better to pay for them than go without. Advertisers too, would find it for their interest to advertise, and quite as well to pay when the work is done. Thus in a little while, matters would get settled and all go on prosperously And the less number to a subscription, which would be the result, if any, would be more than made up in the absence of bad debts, resulting from the business.

But it is not only the publishers that would be benefited. It would benefit every subscriber The less time required in making charges, drawing off bills and collecting them, and the less anxiety in consequence of them, is actual labor, and "wear and tear" that might and would be expended upon the papers themselves, to their decided advantage Neither would men be tempted to subscribe for more papers than they needed, and thus have a debt accumulating against them, perhaps, beyond their ability to pay.

The cash system would give greater independence and a higher character to the newspaper press, and make it more worthy of support and confidence, or consign it to sudden neglect and sure decay. But as we have intimated, in order to the certain success of the plan, it is necessary there should be a concert of action among all interested For one or two established papers to undertake it without the concurrence of others, would be vain Why not then the press in Maine, as one man, agree upon a time when they will commence the cash system at least, so far as relates to all new subscribers, and advertisements? The time might be set for the first of January next, when no publisher will add the name of a subscriber to his list, or insert an advertisement for an individual without payment in advance

We have thrown out these hints in the hope that some such plan would commend itself to the good sense of those concerned with the press in this State, and that measures may be adopted for carrying the same into effect Brethren of the press, what say ye shall the plan be adopted? The question is now before you for discussion, and decision.

SICKNESS AT THE SOUTH

At New Orleans on the 5th instant, there were forty six interments in the several graveyards in that city all cases of yellow fever The Louisianian of the 6th says "The yellow fever has not become less malignant, and it seems to hunt out every individual who is not proof hardened by a residence in the climate"

At Mobile, the fever appears to be on the increase. The Mercantile Advertiser of the 6th instant says "Owing to the alarming increase of sickness and the impracticability of procuring hands in the several printing offices in this city, the several newspapers have entered into an agreement to publish only once a week during the prevalence of the epidemic."

A letter of the same date, published in the Louisiana Courier, states that the deaths for the two days previous had been very numerous, that the city had become like a hospital, and that out of the present population, computed at 3500, the doctors state about 1200 are sick Some of the deaths are very sudden, say in twenty four hours- others from three to five days."

At Augusta on the 9th, the board of health reported four, and on the 10th, eight deaths by the fever

At Charleston, for the week ending on the 8th instant, there were twenty seven deaths twelve from fever

LATER FROM NEW ORLEANS The Picayune of the 8th says "not a cheering sentence, nor a word of hope have we to offer relative to the epidemic It is still unsparing in its attacks, and deadly in its design insidious and fatal The number of new cases on the 7th was 25 deaths 10

☞ We publish to day the returns of votes for Governor They are complete with the exception of about thirty small towns and plantations which when included, will not make a difference perhaps of two hundred votes in the majority either way Below is a recapitulation It will be seen the whole vote has fallen off very much from last year the Whig vote much more than that of our opponents

THE ACTRESS.

BY F. A DURIVAGE.

(CONTINUED)

The murder of Angela created an overpowering sensation The event brought her name and appearance to the recollection of all the citizens of Boston, and an interest was awakened in the friendless girl, now that she was no more, which few pretended to feel while she was in the land of the living Her gentleness, grace and beauty, formed the theme of eulogy in the public prints her accomplishments were exaggerated, and her story related with all the embellishments of imagination and style Her death invested it with a mysterious fascination The perpetrator of the deed had been taken, but refused to confess his guilt, and had been fully committed for trial

The day of trial had arrived, and the country town in which it was to take place was thronged at an early hour with people whose faces teemed with the expression of curiosity and excitement The court house was surrounded by an immense crowd, all pressing toward the yet closed doors, thronging and thirsting for admittance The moment the barrier was removed, a tide of human beings poured into the building and instantly filled it to suffocation Threats execrations, cries and groans resounded in the sacred hall of justice, till the bench, exerting its imperative authority, commanded its officers to clear the house of all superfluous members The "select few" that remained, congratulated themselves on the privilege they enjoyed, and all eyes were bent upon the prisoner A murmur ran throughout the vast hall, for many in that assemblage recognized in his handsome features the lineaments of Luke Howard

His forehead exhibited, it is true, traces of care, but there yet lurked about his handsome lips an expression indicating hope and innocence, which strongly prepossessed the beholders in his favor There was one remarkable circumstance attending his situation none of his family were seated near him with the exception of his elder brother, who officiated as council for the prisoner It is true that many of his young friends and acquaintances, with all of whom he was a favorite, and some of whom doubted his innocence, clustered in his vicinity, anticipating his triumphant acquittal

We shall not attempt to detail the preliminary operations of the court, the empanelling of the jury, and other circumstances which impeded the opening of the case

The prosecuting attorney was a man of inflexible integrity, of acute judgment, and of a powerful persuasive eloquence He commented on the enormity of the offence, the guilty recklessness with which it was committed, and made even the youth of the prisoner operate against him, since the commission of such a crime in one so young, displayed an innate depravity of heart

The soul of Luke was filled with gloom and indignation when he saw old Ursula take the stand as the principal witness against him There was a slight tremulousness in her voice as she took the oath, for the eagle eye of Albert was upon her, but it might have arisen from the feebleness of age, or the novelty of her situation Her testimony was given in a firmer tone

"She was the friend and servant of the deceased, who was a singer and actress. She had known her from her earliest youth, and she had been her benefactress rather than a mistress She [Angela] had been visited by the prisoner, whose addresses she had rejected, as they were of a dishonorable nature On the night of the murder the deceased had retired at her usual hour, in excellent health and spirits Witness then went to bed herself About ten o'clock, was awoke by cries for help recognized the voice of her mistress, got up, rushed to the door of her room, and found it locked Burst it open, entered, and found the prisoner bending over the bed. The deceased was lying on the bed in her night dress, covered with blood a stab in her breast, and one in her side Witness said to prisoner 'Villain! you have murdered her' and prisoner answered 'I know it, and I am satisfied' A knife was found with the name of prisoner upon the handle (Here the knife was produced) Witness fled to a neighbor's house for assistance, and obtained it Two men accompanied her back to the cottage, and one went for an officer Prisoner seemed gloomy, and made no resistance, but yet denied his guilt"

The witness was subjected to a severe cross-examination, which failed, however, of eliciting a single contradiction in her testimony Other witnesses were introduced corroborating the testimony with regard to the arrest of the prisoner.

After such stunning evidence, the defence, of course, was lame and impotent Witnesses were brought forward who testified to the general good character of the accused, but this vague testimony was of no avail

The time arrived for the Judge to charge the Jury, which he did briefly and solemnly There was no doubt, he said, of the credibility of the witness for the prosecution, there was not a shadow raised in the defence of the unfortunate prisoner, and it remained for them to declare their verdict

After an absence of fifteen minutes, the jury rendered an unanimous verdict of *guilty* When the foreman pronounced the awful words, so overwhelming to the wretched prisoner, the numerous auditors, unmindful of the decorum of custom, and regardless of reverence due to justice, all pitiless and passionate, testified their joy at the verdict by repeated and tumultuous applauses, which caused the unfortunate prisoner to bow his head and conceal it in his hands But high amidst the almost universal din of applause, arose the voice of a woman wailing as if her heart had been broken The prisoner started to his feet gazed wildly and pitifully around and then, as silence fell again on the dense multitude, sank slowly to his seat The Judge demanded if he could show cause why sentence of death should not be pronounced against him Thus addressed, the prisoner arose, and in a firm voice spoke

"I have only this to say, that I am innocent. Circumstances, I am aware, appear against me, and more than circumstantial evidence has induced my conviction But I declare solemnly before this tribunal, standing as I do upon the brink of inevitable fate, that I am *not guilty* Time, which discovereth all things, will, in obedience to the mysterious decrees of heaven, eventually release my memory from the stain which will for a time rest darkly upon it, and reveal the real criminal to justice For the purpose only known to Him, God hath brought me to this bitter pass, but I will neither murmur against his justice, nor revile the laws of my country, although by them I am doomed to an ignominious death Standing as I do upon the threshold of eternity, I am as incapable of falsehood as of fear, and when I look upon the inconceivable brightness of the world beyond, I can shut my eyes upon the blind hate of those who throng about me, eager for my life, and can die without a murmur I will no longer trespass upon the patience of my auditors I have done"

It was with an effort and feebleness of voice that the excellent Judge, in pursuance of the dictates of his duty, pronounced sentence of death against the prisoner As he concluded there was no murmur of applause, but again arose the wailing cry of a woman as before Again the prisoner started to his feet and gazed piteously around upon the sea of faces He encountered nothing but stern glances and looks of aversion, and he bowed his head upon his breast like one abandoned of the world

The dull gray light of a cloudy morning streamed through the narrow window of the prisoner's cell, and threw its light upon the pallid countenance, now ploughed with the furrows of care and bodily suffering Yet, worn and wan as was that face, there was, strange as it may appear, a smile of satisfaction on the thin, pale lips

"My sufferings, murmured the prisoner, 'are soon to end I shall soon stand at a mightier tribunal than that which has condemned me to the scaffold Merciful heaven! accept my soul, innocent of this great crime for which I am to suffer at thy hands. Emily but I must not think of her!"

His soliloquy was interrupted by the entrance of the jailer, who approached with an unwonted cheerfulness depicted on his rude uncomely countenance. Luke endeavored to smile upon the man in gratitude for his show of courtesy

"Come now, said the myrmidon of the law, 'that's what I likes what I calls comfortable, I likes to see a lad keep up his spirits when he is nigh his latter end Bless your soul, it is but a short cut out of the world, and that's better than dying by inches of the consumption or a fever"

"It is not death I fear, replied Luke 'but *such* a death—a death of shame!"

"A death of shame, well, you might have expected it. You oughtn't to have killed the gal Confess now it was a bloody, cruel, piece of business"

"Man! cried Luke, 'I tell you I am not guilty!"

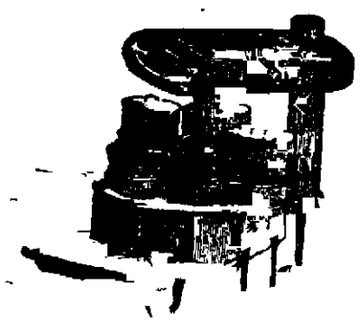
SOMETHING NEW IN PENOBSCOT.



GRANGER'S PATENT ELEVATED OVEN ROTARY COOKING STOVE. In presenting this Stove to the public it is useless to name the thousand testimonies in its favor, as it only requires examination by the purchasers to convince them of its superiority, which I am able to warrant and defend, and in duty to the patentee, and for the safety of all those who may see fit to make trial of them, that I will warrant them susceptible of performing one third more business with one third less fuel than any Stove that can now be produced in America, with much more ease and convenience Owing to the spacious oven being placed directly over the boilers, which admits of using the heat for baking that would otherwise escape without any particular benefit & without the least injury to the boiling, roasting and broiling parts, all of which may be performed to great perfection. Consisting of five sizes Nos 0, 1, 2, 3 and 4 To convince the public of the above facts, they are respectfully solicited to call and examine the above stoves, whether wishing to purchase or not, they will find Granger's Patent Luminary Conical, Improved Cast Iron Oven Rotary, Gothic Box, and Parlor Stoves, Fire Frames, Oven Mouths, &c

IT IS NOW UNIVERSALLY ACKNOWLEDGED THAT THE

INDIAN PURGATIVE PILLS

ARE the best purgative medicine extant Their invaluable efficacy in the cure of ALL DISEASES is universally conceded They suit all complaints and all ages and are so natural to the human constitution as to be consequently the only medicine never injurious to the most delicate Like our food they are digestive they form part of and go into the circulation and impart an energy to the blood which build up the wasted tissues, and consequently take off the pale cast of the skin open the pores and purify the blood because they drain all corruptions from that life giving fluid They impart strength and vigor to the whole system, and the effects are beneficial to those who use them they remove those humors which have given rise to disease they aid and improve digestion and consequently follow with ease because they cleanse the stomach and bowels of those slimy humors which obstruct them and vex the nervous system but paralyze and clog the digestive organs In short they possess all the properties that can be claimed for any medicine and what is very remarkable, it is utterly impossible to use it without benefit

VALUABLE CERTIFICATES.
EVAN'S CAMOMILE AND APERIENT PILLS
THE DIFFERENCE.

It cannot be denied that whilst many medicines which are recommended to the public have not even the negative merit of harmlessness there are others which it would be great injustice indeed and suicidal prejudice to involve unmerited in a common condemnation And when a medicine comes endorsed with all the great names that have adorned the annals of the medical profession and warranted by the seal and signature of long and uniform success, its proprietor makes no on reason to demand upon the public confidence when he claims for it a superior consideration

The Camomile Preparation by Dr Wm Evans is undeniably entitled to this consideration for whilst no medical authority in existence condemns it every medical practitioner that is acquainted with it freely acknowledges its extraordinary virtues and that he latter should do so imparts into their personal interests, must be attributed either to their candor and love of truth or to their unwillingness to fly in the face of all observation and the testimony of thousands

Dr W Evans does not pretend that his Camomile Tonic Pills will cure all diseases He frankly and conscientiously admits that they will not He lays no claim to the discovery of the Philosopher's Stone" and wishes not to be believed that he sells the Elixir of Life but he does say and he does believe and he can prove that in debility and impaired constitutions in Nervous diseases of all kinds, in weakness of the digestive organs, in incipient consumptions whether of the lungs or the liver, in the dreadful debility occasioned by the use of purgatives, in palsy rheumatism (more especially in the sickness incident to mothers, and females of relaxed nerves, in every case of delirium tremens or that disease which is brought on by intemperance, in the wretched horrors of body and mind which a crude from occasional inebriety, loss of appetite languor melancholy pains in the head limbs or side in corrupt sallow and uncomely complexion caused by the bad state of the fluids in all these cases and in others mentioned in the bills of directions given with his medicines HE DOES SAY that the Camomile Tonic Pills, interchanged occasionally with his Aperient Family Pills (the best known) which are sold with them will effect immediate relief, and if used but for a fair period of trial a perfect cure This much is placed beyond a doubt by fairly testimonies which would be given on oath and for this much Dr W Evans can conscientiously request confidence He therefore need only add that his Camomile Tonic Pills, together with his excellent Family Aperient Pills can be obtained wholesale or retail at No 7 Division street near Chatham square N York and his authorized agents in town and country

Other and more conclusive demonstrations of the efficacy of Dr Evans' Camomile Preparation and Aperient Medicines, are submitted by the following important and extraordinary cures effected by their highly medicinal qualities, all of which may be seen at Dr. Wm Evans' Medical Office No 7, Division street One or two of these he herewith respectfully gives to a discriminating public

Dr Wm Evans Sir, be pleased to receive the thanks of one who has been a great sufferer for several years, for the great benefits she has received from the virtues of your most valuable Camomile Pills She has suffered with pain and distress in the head a lightness across the head a lightness across the stomach shortness of breath and palpitation of the heart, exercise would almost overcome her, but since using your Camomile Tonic Pills her complaints are removed she is able to exercise without fatigue and she is happy to say can enjoy life comfortably again

Newark, July 18 1836 Dear Sir for four years I have been so unwell that I was unable to attend to my business and for the last 4 or 5 months was confined to my room, my complaints were rheumatism pains in my stomach indigestion and loss of appetite with continued pain and dizziness in my head, I used different kinds of medicines without effect, until I commenced taking your invaluable Camomile and Aperient Pills their beneficial effects upon me astonish all who know my situation In a few days I shall take your office to express my gratitude to you in person In the mean time I subscribe myself your most obedt servt

Dr Wm Evans

Extract of a letter from Jonas Snyder, Postmaster Knoxville Pa to Dr. Wm Evans Among several cases an elderly lady who had been 2 years afflicted with nervous hypochondria debility &c that for the last 3 years she constantly received medical aid from a respectable physician but the pressure and pain on her heart and breast and especially in her left side remained immovable, attended at long intervals with weakness in her head and on her mind keeping her discouraged to undertake anything In May she commenced using Dr W Evans' Camomile and Family Aperient Pills according to the direction accompanying them A reaction took place, the pain and pressure in her body was removed, her mind became clear and strong, her spirits perfectly good and up to this time is in all respects restored to health which for the last 10 years she has not enjoyed

Sept 2 1836 JONAS SNYDER

On Low Spirits Low spirits is a certain state of the mind accompanied by indigestion wherein the greatest evils are apprehended upon the slightest grounds and the worst consequences imagined. Ancient writers supposed this disease to be confined to those particular regions of the abdomen technically called hypochondria which are situated on the right or left side of that cavity, whence comes the name hypochondriasis

SYMPTOMS The common corporeal symptoms are flatulency in the stomach or bowels acid eructations costiveness spasmodic pains, giddiness dimness of sight palpitations and often an utter inability of fixing the attention upon any subject of importance or engaging in any thing that demands vigour or courage Also languidness, the mind becomes irritable thoughtful desponding melancholy and depressed accompanied with a total derangement of the nervous system The mental feelings and peculiar train of ideas that haunt the imagination and overwhelm the judgment exhibit an infinite diversity The wisest and best of men are as open to this affliction as the weakest

CAUSES A sedentary life of any kind especially severe study protracted to a late hour in the night and rarely relieved by social intercourse or exercise a dissolute habit great excess in eating and drinking the immoderate use of mercury violent purgatives the suppression of some habitual discharge, or long continued eruption, relaxation or debility of one or more important organs within abdomen is frequent cause

TREATMENT The principal objects of treatment are to remove indigestion to strengthen the body and to cheer the spirits which may be promoted by exercise early hours regular meals and pleasant conversation The bowels (if costive) being carefully regulated by the occasional use of a mild aperient We know nothing better calculated to obtain this end than Dr Wm Evans Aperient Pills being mild and certain in their operation The bowels being once cleansed, his inestimable Camomile Pills (which are tonic anodyne & anti spasmodic) are an infallible remedy & without dispute have proved a great blessing to the numerous public

Some physicians have recommended a free use of mercury but it should not be resorted to, as in many cases it will greatly aggravate symptoms

B BRANDRETH, M D

"PUBLIC OPINION IS SELDOM WRONG" Junius

PUBLIC OPINION Public opinion is perhaps the only unerring guide from whose decision there is no appeal, and was it ever such a manifestation of its approval as there is with Brandreth's Vegetable Universal Pills? Step by step has this medicine wormed itself into favor in spite of *envy, derision* and *scorn* Triumphant has been its progress to its present sphere of extensive usefulness It has surmounted obstacles before which quackery stands paralyzed and has gained for itself a reputation which neither Physicians nor the worthless, counterfeiting apothecaries can ever injure These charlatans nevertheless do assail it with the malignant shafts of their despicable envy and which rebounds upon themselves with a power each day on the increase, until they themselves will be covered with the stains of their own manufacturing They can no more injure the reputation of Brandreth's Pills than they can put their hand upon the sun,

"Or with polluted fingers tarnish it"

If to discover the cause and nature of disease—if to make a medicine universal in its powers and universal in its curative effects upon every kind of malady proved by the cures performed upon thousands of persons restored to the blessings of health if to do these things be praiseworthy then is Dr Benjamin Brandreth entitled to the praise of this and each succeeding generation By the means he points out chronic infirmities and premature death are prevented What are the means? Simply Vegetable Purgation, and it is now an established fact that there is no other way by which a REAL CURE can be effected

John Dorr's County Agency being discontinued by mutual consent Sub-Agents in Waldo Penobscot, Hancock and Washington Counties, will hereafter receive their supplies from Mr JOHN O LANGLEY, Dr Brandreth's duly authorized Travelling Agent or from the New England Office,

19 HANOVER STREET, 19.

The ONLY Office in Boston for Dr BRANDRETH'S VEGETABLE UNIVERSAL PILLS

How to be secure from Counterfeit Pills purporting to be Brandreth's Pills

STOREKEEPERS' SECURITY All persons who are authorized to travel for Doctor Benjamin Brandreth have invariably the power of attorney from him proved before the Clerk of the County of New York. Without this is exhibited, touch, taste, nor handle.

STILL FURTHER, Dr. Brandreth's Travellers never require the money in advance Dr B's terms being *Medicine to be paid for when sold*

SECURITY TO THE PUBLIC Observe that the certificate is dated this year, Eighteen hundred and thirty eight in figures, and see that such figures are engraved not written

Inquire whether the power of attorney was seen when the Pills were left, &c

All Pills having Wm Brandreth on the label George Hodgkinson on the edge, are counterfeits made to Deceive the Public and evade the law at the same time

These, and indeed ALL counterfeit Pills, if used *according to the direction* which accompany my Pills are calculated to destroy life. They are made by *men having no standing or respectability*, without habitation or name perfectly careless of consequences, *provided money is obtained* Extract from Dr B's address to citizens of U S

And be careful to remember that I have never authorized any Doctor Druggist, Apothecary or Pedlar in the U S to sell my pills These contemptible *persons universally sell counterfeits*, and that all Tradesmen who are made agents have each of them *a copperplate* certificate of agency, *signed in writing* with a pen by me, and which certificate requires renewal every twelve months it being no guarantee for more than one year from date observe the date is *not written*, it is *engraved*

HARRISON'S PERISTALTIC LOZENGES;

AN APPROVED REMEDY FOR COSTIVENESS AND DYSPEPSIA

THIS medicine is not put forth as a universal nostrum, calculated to cure all the diseases incident to humanity, but rather as a means of preventing them. It may safely be stated that tenths of the most serious maladies arise from an unhealthy action of the stomach and bowels, inducing as a natural consequence, indigestion and its results, such as head ache, acidity of the stomach, heart burn flatulency, nausea low spirits jaundice and a whole catalogue of complaints which may be entirely removed by timely and persevering use of this remedy

The most cogent objection to Aperients in general is, that containing some drastic purgative they leave after their operation has ceased a torpor of the stomach and bowels proceeding consequently which their administration was intended to correct Such effects will not follow the use of these lozenges

TO FEMALES IN DELICATE HEALTH

The Peristaltic Lozenges are strongly recommended to the notice of every Lady from the sanction and approbation of so many eminent gentlemen of the Medical Profession as a safe and valuable medicine in removing obstructions and relieving all other inconveniences to which the female frame is liable especially those which arise at an early period of life from want of exercise and general debility of the system They create an appetite, correct indigestion, remove giddiness and nervous head ache and are eminently useful in windy disorders pains in the stomach shortness of breath and palpitation of the heart Being perfectly innocent they can be given at any time and under any circumstances the most delicate female, when an aperient is required may have recourse to them and they will act as a preventive against those nervous and hysterical affections which so frequently arise from confined constipation

TO SEAFARING PEOPLE AND TRAVELLERS GENERALLY

To individuals travelling more particularly seafaring persons when from change of habit of climate, the liver and bowels become inactive and costiveness follows as an invariable result these lozenges will prove invaluable One individual writes I consider myself cured of costiveness to which I was always subject the moment I landed solely by the use of your medicine

proprietor is continually receiving orders from seafaring friends for the Lozenges When they are to be carried to sea, they ought always to be started from the box in which they are packed but put into tight bottles In this way they may be kept good for any length of time

The proprietor offers them as a cure for nervous head ache and general neuralgic affections remarkable cures might be published if thought necessary

Mr Milhan, the agent in New York writes "I think it no longer necessary to advertise to any extent, as heretofore, the Lozenges are now known I am daily receiving the most satisfactory accounts of them, and I shall always recommend them to my customers"

The very questionable reputation which medicine derives from the fashionable practice of publishing a long list of certificates from persons whom nobody knows has induced the proprietor to forego the opportunity of offering to the public many commendations which he is daily receiving of these Lozenges, trusting rather to their own merits, which will be apparent to all on trial and the respectability of his numerous agents

These Lozenges have been in use for two years the general approbation they have met with from our first families establishes their merits and makes further remarks unnecessary They are put up in boxes which may be carried in the pocket and sold at fifty cents per box

HARRISON'S PILE REMEDY

Warranted as specific in all cases

Hæmorrhoids or the Piles are occasioned by habitual costiveness giddiness hard rising in the back and not unfrequently by the use of aperient purgatives The popular nostrum known as Vegetable Pills,' Universal Pills could be rendered highly injurious when taken for a long time being composed chiefly of aloes which ought never to be taken by persons subject to Piles

This complaint is not necessarily and of itself immediately dangerous, in fact in some instances it may be considered as a salutary evacuation especially in plethoric or full blooded persons but when suffered to remain long, it is the cause of many serious and even hazardous diseases

The remedy now offered to the public is prepared by the undersigned, from the recipe of a highly eminent practitioner in a neighboring city and from the numerous cases absolutely cured by the use of it, he feels warranted in offering it as a specific

It is put up in packages at fifty cents with directions for use, accompanied by a plain treatise on the disease Prepared and for sale by
